## SKILLS

Proficient in HTML, CSS, JavaScript, and TypeScript, with experience in React and Next.js. Skilled in version control using Git and GitHub, and experienced with WordPress and Google Analytics. Strong understanding of UI/UX design, responsive web design, and ARIA accessibility standards.

## INTERPERSONAL SKILLS

Strong communication and teamwork abilities, with a focus on problem-solving and adaptability. Highly attentive to detail and creative in developing responsive, accessible user interfaces. Self-motivated and open to feedback for continuous improvement, driven by empathy for users to create seamless experiences.

## PROJECTS

### RACING SPIRIT                    HTML / CSS / JAVASCRIPT / REACT

Racing Spirit is an e-commerce single-page application (SPA), featuring a JSON server mock back-end, developed from scratch using HTML, CSS, JavaScript and React. Inspired by DoomsdayCo design and featuring product images from Iron Heart, it stands out for its attractive aesthetic and smooth user experience, providing intuitive and immersive navigation for users.

### TASKFLOW                    HTML / CSS / JAVASCRIPT

TaskFlow is the ideal application for effortless productivity. Developed in HTML, CSS, and JavaScript, it allows users to manage tasks, set reminders, and monitor progress. Its clean and accessible design has been optimized for a variety of devices.

### YOUTUBE CLONE                    HTML / CSS / JAVASCRIPT

Front-end clone of the YouTube homepage developed from scratch using HTML, CSS, and JavaScript. It includes videos featuring information about Studio Ghibli films and features an intuitive interface that facilitates navigation for users, providing an attractive and accessible visual experience.
